

MOHAN RATHOD

Full-Stack Developer | AI-ML Engineer

Mumbai, India | mohanrathodmr2004@gmail.com | github.com/mohanrathodmr

EDUCATION

Bachelor of Engineering in Computer Science & Engineering | 2022 - 2026

Mumbai University | Final Year Student

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C++, HTML5, CSS3, SQL

Frontend: React, Next.js, Three.js, WebGL, Tailwind CSS, Redux

Backend & Database: Node.js, Express, Flask, FastAPI, PostgreSQL, MongoDB, Prisma

AI & ML: PyTorch, TensorFlow, OpenCV, FaceNet, scikit-learn, LangChain, MTCNN

DevOps & Tools: Git, GitHub, Docker, Linux, Postman, Vite, Vercel

SELECTED PROJECTS

1. Smart Attendance System - Python, FaceNet, SVM, OpenCV, Flask
 - * Engineered automated student face detection and recognition pipeline with 98.4% accuracy.
 - * Reduced class roll-call time from 15 minutes to under 30 seconds.
2. Character Prompt Store - Next.js, TypeScript, Tailwind CSS, Stripe, Prisma
 - * Built high-performance digital marketplace for discovering and purchasing AI prompts.
3. 3D WebGL Living Sanctuary - Three.js, React, GLSL Shaders, Vite
 - * Procedural interactive 3D temple environment running at locked 60 FPS in WebGL.

HONORS & CERTIFICATIONS

- * Machine Learning Specialization & Deep Learning Foundations
- * Full-Stack Web Development Certification
